

## Fall 2020 Host Registration - Now Open!

Deadline to Register: Friday, September 25, 2020

More information: [go.umd.edu/IFADlite](https://go.umd.edu/IFADlite)

The University Career Center's popular **Intern for a Day** program has historically connected UMD students with alumni, parents, and employers for in-person job shadowing experiences to explore potential career fields.

For the fall 2020 semester, we are offering **Intern for a Day Lite** which will match UMD students with professionals working in a field of interest to conduct virtual informational interviews.

"Hosts" can live and work *anywhere* nationally and internationally.

### How it Works:

- Interested hosts fill out this [registration form](#) and provide details about their career field by Friday, September 25, 2020.
- Students complete a mandatory orientation to prepare them for the informational interview and apply with their top hosts of interest (based on the description you provide!)
- We match the students with the hosts most of interest to them and make the introduction.

It takes the "cold calling" step out of informational interviews and networking for students. Questions?
