

# Expand your financial knowledge today!

At SECU, we are committed to helping you pave a path toward a secure financial future. And that begins with a solid understanding of **key financial concepts**, such as savings, investing, budgeting, mortgages, overdraft protection, identity protection, credit scores, financing higher education, and much more.

As a SECU partner, you now have access to an online financial education program that explains these critical concepts in a series of **2-7minute, interactive segments**. There are even helpful action plans to help put your newly acquired knowledge to use!

Access this free, online educational tool at work or in the comfort of your own home.

With each segment that you complete, you'll be on your way to increasing your financial savvy and taking control of your future.
